July 1958

JUNE BASE PRICE \$3.39

Dairy farmers will receive a base price of \$3.39 for June 1958 deliveries of Grade A base milk to handlers under the South Bend-LaPorte, Indiana, milk order. The base price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 6.9 cents for each one-tenth percent that tests vary above or below the 3.5 percent standard.

JUNE EXCESS PRICE \$2.89

June deliveries of Grade A excess milk to handlers under the South Bend-LaPorte, Indiana, milk order will be paid for at the rate of \$2.89 per hundredweight for 3.5 percent milk and adjusted by the same differential of 6.9 cents, as is used for base milk. These minimum prices are subject to a 3 cent per hundredweight marketing service deduction, together with the authorized hauling charges and the 3 percent transportation tax on hauling. For comparative purposes, a uniform price of \$3.29 per hundredweight was computed, which is 22 cents less than the computed uniform price of a year ago and 5 cents less than the May uniform price.

PRODUCER RECEIPTS

Producer receipts declined slightly on a daily basis from May deliveries, but were 9.6 percent over the daily receipts of a year ago. Class I utilization of producer receipts was only 52 percent for this month, which is 3.5 percent less than May, our previous low in utilization.

REFERENDUM

A referendum is being conducted now by Richard J. Connolly on the final decision signed July 11, 1958. Producers, not members of a cooperative association, will receive ballots to vote approval or disapproval of the amended order. The amendment contains provisions enlarging the marketing area to include LaPorte, St. Joseph, and Elkhart Counties, pool plant and reload point qualifications, zoning, and a supply-demand adjustment based on the supply and demand requirements of this market. The amended order, if approved, will be known as Order No. 67, The South Bend-LaPorte-Elkhart, Indiana, Marketing Area.

CLASS I SALES

Class I sales on a daily basis decreased almost 8 percent from May and are almost 2 percent less than a year ago. This decrease in Class I sales and an increase of producer receipts tends to depress the uniform price or the base price for the months of May and June.
